About This Game

In this turn based RPG for Windows you play as a young mercenary and travel from soul to soul to avenge your fiance and her family. While finding a way to change the flow of past events, you will encounter many obstacles and meet new allies. Will you be brave enough?

This game aims to revive nostalgic moments for good old RPG fanatics (such as Chrono Trigger, Final Fantasy 3...). Our game has no game over screen; once the hero dies, his soul is sent to the underworld, to meet the Soul Giver. At this point, it is possible to re-embodiment a new body (therefore several choices of classes: Warrior, Assassin, Mage, Hunter ...). In addition, once a character masters a technique, it is learned permanently in the mind of the hero. It is therefore possible to transfer a warrior's ability to a magician. This leads toward interesting gameplay combinations.

What makes the game unique and fun to play:

- Dark, mysterious and ever-changing storyline
- Unique class & death system
 - High replay value.
 - Various treasure hunting.
 - Easy crafting system

If you are a fan of old good RPG games, this one is surely for YOU!

As some players may know, I spent fifteen years being an aspiring novelist before shifting into game development. Thanks to that, a 45,000 word visual novel like Cursed Sight actually felt quite familiar.

Without the potential distractions of gameplay, I am able to world build more than my previous projects. Hopefully this style will be to your liking. Thank you so much for your support, and hey, spoilers ahead, so please consider playing through the game first!

this game put the word "retro" and "nostalgie" into the WHOLE "new" Level, honestly.

An 8-way (arena) shooter with all other extras, cool story, great old styled (VERY old styled) graphic and chip tunes...AND EVEN A C64 (/spectrum) STYLED LOADING SCREEN....

honestly, players who loves the REAL good old times of gaming even before the NES-era will love this.. This gigantic turd of a game is the bane of the idle gaming industry. It's like the developer was running low on moola and decided to drop this big fecal junk into steam, I mean, come on dude, this game is lacking soo much content and the graphics are♥♥♥♥♥too, but what can you expect from someone who decided it was a good idea to charge for what it would seem to be just a scoreboard boost, shame on this dev, the poor soul just lost so much credibility with this♥♥♥♥♥ Anyway, it's free so theres something, you could play it to see a good example of what not to do when you finally decide to make an idle game yourself.

Cheers. This visual novel is among the best I have read so far. I wish they don't drop quality and keep up good work till the end. This is the first time, I ever comment on a game at steam. I moved by the fact that so little comment this game received eventhough it is quality. I hope this comment be a little contibution. Hoping to see interesting and good quality more chapter release as soon as possible.. You get 4 characters that you can grind to get, which isn't very long to grind if you grind while playing each new character in turn. Arcade mode is a small paragraph before a fight with bots and modifiers. It's not wave assault, it only recently added a survive x* amount of time round mode, and the rewards on normal quests are NOT GUARANTEED. Doing the weekly quest only guarantees you one effect per WEEK, the rest is RNG. This is NOT worth it, in any capacity.. It's a pretty ok program, but I can honestly not recommend this to anyone that's new to digital art or that isn't paitent enough to learn how to make brushes with this program. My first time using this program was already so confusing and foreign, that I just kept to the already included brushes instead of making my own. One thing that a beginner will definitely not be use are the moddifiers for tilt and pen rotation, since most budget drawing tablets will not include this feature. I can't really say anything for professionals but I can see that this program would be best for those that want to experiment around or have a more unique art style that's a bit difficult to pull off with regular software. I do have to warn though that multiple other users have experienced bugs that can keep you from even using the program.. Could be a great game but the rider and bike crash for no apparent reason.

I have all the Milestone MX and SX games and this only happens in MXGP Pro.

They could patch this into being a great game. At this point its just too frustrating to run in Career mode.

I hope Milestone will fix this to ride as well as MESX rides.. Cutscene-Shoot-Cutscene-Jump-Cutscene-Painkiller-Cutscene-Jump-Cutscene-Shoot-Cutscene-Cutscene-Painkiller-Cutscene-.... Easy to stay

Hard to leave

Great game to kill some time and make your brain work a little.

. All the animals are the exact same... there is no score of any kind... The Hunter Classic was better despite all the MT. Fairly typical find-the-hidden-object game, with mini game puzzles at the end of each level. Nice to relax with. :)

I have play for many times,it seems that it can't be easily boring,I always play this game when I want ,and now I have a 15 donation 's data.. Having played this game in early access for quite some time, I can admit the only thing that brought me to it was the Brevik's themselves. Being a life long gamer of D2 and 3k hours + in Marvel Heroes it is safe to say that I enjoy his products. ****ALERT**** I typically **DO NOT** enjoy these style games. They don't typically attract me so I bought this game with the sole intention of just helping them. **HOWEVER**, after playing the game in descent mode I found myself having a ton of fun. I made multiple classes, Bard being my favorite. I've been waiting for official release so I could see it at it's current best. If this game was able to draw me in, someone who traditionally doesn't like these games, that should say how fun and exciting the game can be. The Brevik's stream the game all the time and David is constantly updating the game with patches and keeping a heavy involvement with the community. If you took yourself and a significant other to the movies, it would cost you \$20 which last 2-3 hrs. Spend 20\$ and help support the Brevik's and have many many hours of fun in this **AWESOME** loot explosion, boss killing, mob destroying, crafting extravaganza and oh shoot, manage your inventory!! **A+** product!. Great tutorials !

. Probably one of the most casual games I have ever played. Only recommended if you are buying it for small children. The game features turn based combat on a hex tiled board and different units with obvious strengths and weaknesses. In fact the rock paper scissors style combat system is so biased that a severely weakened unit can still easily kill a full health unit that it counters. Battles are boring and just lead to unit spamming more than actual strategy. Also the unit speech is probably the cringiest stuff i have **EVER** heard.. This is very gruesome, and somewhat gory. This game is very fun in all the was you can kill the dummy. This is a great game (Although it runs on a crappy game maker) and it deserves alot of attention.
