About This Game

Introduction

The day started like any other.... But then, just as you were enjoying a walk with your sister, she was kidnapped by evil space robots! You could have been taken as well but you were lucky and escaped. ...But what of your sister? Can you save her from these monsters - or will you die trying? If you're brave enough then you will have to negotiate a series of challenging physics based puzzles in a world of traps and monsters....

What Else?

Welcome to the darker reaches of my imagination. Umбра: Shadow of Death has seven large levels of puzzles for you to conquer. On your journey you will encounter.... Ah, heck, why should I tell you what will happen? You'll be confronted by puzzles, traps, monsters and robots! You'll also get to drive a high-performance truck and shoot a mini-gun....! If you're not sure - try the Demo...

Umbra is a 2d physics platformer that will take up a couple of hours of your time... If your hardware has less than 1Gb of video memory and you don't have DirectX support then the game may not run smoothly. The game is designed to be played using an Xbox360 controller; keyboard/mouse control is supported - but the game may not feel as good to play (using a laptop trackpad is not recommended). Steam Achievements are supported, so you can share your intellectual and hand/eye coordination superiority with your friends. The game may not run smoothly or in full screen on older / min spec hardware.

Title: Umbra: Shadow of Death
Genre: Action, Indie
Developer:
Colludium Ltd
Publisher:
Colludium Ltd
Release Date: 18 Dec, 2015

b4d347fde0

Minimum:

OS: Windows 7 32/64

Processor: Intel i5 or better

Memory: 3 GB RAM

Graphics: Integrated graphics card Intel HD4400 with 2GB shared memory

has been activated.

The following function has been added:

- A new Colosseum battle mode will be added to compete for the number of winning streaks.
- *The Colosseum must be unlocked to access new battles.

Justicar Asumi

Profile

ASUMI WAS ORIGINALLY AN ASSASSIN, TRAINED FROM BIRTH TO KILL ON COMMAND, WITHOUT FEAR OR HESITATION. AT SOME STAGE THE LORD REGENT BECAME AWARE OF ASUMI AND EVENTUALLY ELEVATED HER TO JUSTICAR STATUS.

ALTHOUGH SHE HAS FULL RIGHTS AS A JUSTICAR TO DO AS SHE PLEASES AND SEEK OUT ANY INJUSTICE WITHIN EDO. SHE DECIDED TO TAKE A POSITION AS THE LORD REGENTS PERSONAL GUARD.

NOW LIVING WITHIN THE REGENTS PRIMARY RESIDENCE IT IS HER DUTY TO PROTECT HIM FROM ANY INCURSION THAT MAY OCCUR BOTH IN TERMS OF ASSASSINATION PLOTS AND FULL ON MILITARY ASSAULTS.

CONSIDERED TO BE A RECLUSIVE PERSON BY NATURE SHE IS ALSO PERHAPS ONE OF THE MOST ABLE OF THE LATEST JUSTICARS DUE TO HER EXTENSIVE TRAINING PRIOR TO JOINING THE RANKS OFFICIALLY.

umbra shadow of death

Very addictive, but the interface could use a lot of improvements. It's also kinda hard.. story its self is good but the voice acting, and facial expression is cringeworthy. the other games were better. this game should be played for laughs with friends :D. \u826f\u5fc3\u5c0f\u6e38\u620f. waste of money. It's a nice addition to the main game. Enjoyed playing it, but stopped at the skeleton beach level, which became pretty annoying. Nonetheless, it's pretty good. Again with the soundtracks and voices, but this time different.

The only supported language is Russian. At the beginning you see a letter written in Russian and after that you see nothing in the dialogue boxes (totally blank and black). Would be nice for someone who cares about the story to actually have a translation, but I was just playing for the game itself. Not interested in the story actually, since I wasn't impressed with the story from the main game anyway.. Great game to pass the time. Hate that I cant play in a windowed mode, and the graphics are glitchy. Has some cool music and fun scenarios. Love the history lessons.. Disclaimer: I *LOVE* HOG games. I own a BUNCH of them and always keep an open mind with these kinds of games.

On to my review: This game's story is decent enough, about what you'd expect from an HOG. I tried to like this one, I did. I just could NOT get over the MAJOR bugs and horrendous interface. First of all, most of the HO puzzles were "cut off" so to speak. I rarely use hints in games like these, but I found myself absolutely stumped several times and ended up hitting Hint....to which it would go OFF SCREEN to the image hidden UNDERNEATH the item bar. How are you supposed to find this stuff when there is no way to minimize the bar itself to even look??? This provided about 40% of my frustration. The rest of the 60% was LITERALLY being unable to go BACK. Switching between areas was difficult and glitchy. Every 10 clicks or so you MIGHT be able to go back to the previous screen. In my case, I had to continuously use the map feature (which was laggy for no apparent reason) and would take me longer than necessary to get around.

Now I would probably attribute some of the glitchiness to the nature of the game, but it still put a bad taste in my mouth. I would like to finish this one if for no other reason but to just be done with it, but I don't know if I can force myself into glitch mayhem to do so.

TL;DR: I would not recommend this game, but as it is a \$1 game if you can get over the extremely glitchy interface and horridly done HO scenes, then go for it.... keeps on crashing, something about Temp file not being big enough? Is pile of community cr@p. This simply isn't that good a game. It's noir style means long-winded voice overs between scenes, and neither the voice acting nor writing is up to the task. Most of the puzzles are fine, but a few require objects to be placed in very precise patterns without the graphical cues or accuracy to make it clear why your solution does not work. A number of bugs plauge the game, one of which is game-breaking unless you realize you have to change a default Windows setting to get it to go away. The plot twists are fairly predictable, up until the end where it takes a twist to the absurd and goes in a direction that I personally found fairly undesirable. There are simply better point-n-click adventure games out there.

I like this app because now it is so much easier to record my phone's screen without trying to figure out to root my phone. I have tried to buy a screen recorder on my phone itself and that screen recorder became to very not worth it the resolution was so small that i could not even see the video at all at times but this screen recorder makes me see the resolution very well and it is easier to mess around with the setting then my other screen recorder.. aBSOLUTY tERRIBE ! No Gameplay value and just no fun !

First Game i played, i met a Hacker !!! Disgusting !

all around bad game, unittalling and getting a refund as i type ! Damn Asset stealing unity developers. Marketing: THIS IS UPLINK BUT MORE FLESHED OUT

Actual game: THIS IS UPLINK BUT FRUSTRATING AND POORLY EXECUTED. No.

I do not recommend this game.. Battle Chess is a 30 year old DoS game and while it does have some age spots there is some charm to the animation and quaintess when it comes to it's age. It might be worth picking up if you like a good chess game.

https://www.youtube.com/vedit?o=U&video_id=4iT9Xbu7Ehs. I like this and use the content but am not happy that I bought a season pass and this was not included. Buying a season pass should mean you get all DLC content.
